

# **The Hitchhikers Guide to Hico**

Yes, it is SO that time, hence this friendly reminder. The 29<sup>th</sup> annual GSP trek to Hico WV is upon us! This is the season of great friends, great food, great beverages, great activities, and frankly... a great time to get away from work!

As always we will be at Rays Campground. Ray is helping us this year with his stimulus plan and keeping all camping costs the same as last year (\$8 per person per day payable to Ray).

## **DIRECTIONS**

### **From I-79 near Sutton**

Take U.S. 19 South, proceeding through Summersville to U.S. 60 at Hico. Turn right onto U.S. 60 West, then right onto Sunday Road. We're one mile out Sunday Road on the left.

### **From I-77 at Beckley**

Take U.S. 19 North, proceeding 23 miles through Fayetteville to U.S. 60 at Hico. Turn right onto U.S. 60 west, then right onto Sunday Road. We're one mile out Sunday Road on the left.

## **TASTING**

Now as most of you have already seen from Ed, this years tasting will be Vodka. Here is what the Encyclopedia Galactica has to say about alcohol. Alcohol is a colorless volatile liquid formed by the fermentation of sugars and also notes its intoxicating effects on certain carbon based life forms. However, the Hitchhikers Guide to the Galaxy notes that the best drink in existence is the Pan Galactic Gargle Blaster. The effects of drinking one is akin to having your brains smashed out by a slice of lemon wrapped around a large gold brick.

Having said this, please bring your vodka of choice. The joy of a vodka tasting is that it can be distilled from rye, wheat, potatoes, sugar beets, or other fermentables, giving each a subtle difference in aroma and taste. So bring your favorite vodka, flavored vodka, or mixed drink with vodka, and we will all "ooh and ah", while taking teeny tiny sips... and do our best to stay away from the campfire in the fear of instantaneous combustion.

## **WHAT TO BRING**
